I'm gay
(don't worry it's
not contagious)

What are the
technical options
for making/delivering
your design?

Well at this moment
I am using the most
basic methods of
Graphic Design.

Print +
web...

Possible video.

Print design is the
most visual way I
can use to get my
point across, but
may not be enough
for the information I
need to get out.

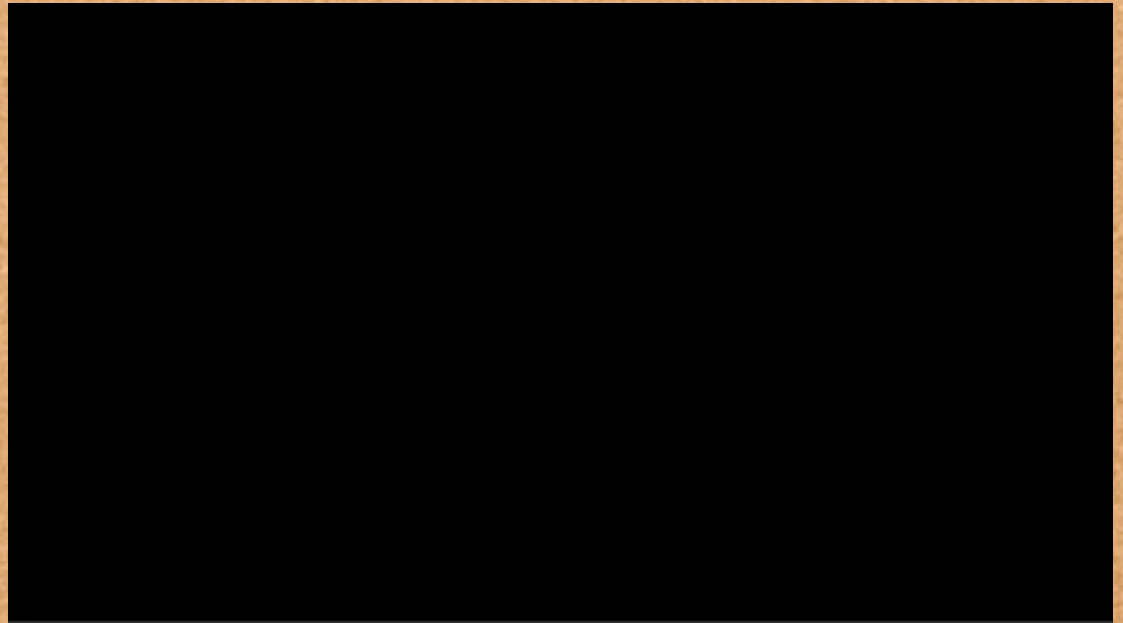

That is where the
website comes in.
It is also very
visual, but can
also hold all the
information I need.

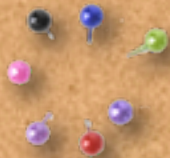

Ref:

pflag.com/ca.ca. -
Stories.

14 stories of people's
lives in the LGBT
community.

The video is also
better for connecting
with the public.
You can only connect
so much with
a poster.

Which option
will make
the most
money?

Posters is for
raising awareness.
The videos is a
more visual way of
raising awareness +
has a better chance
of making someone
donate.

Then the website
can be used for
the subscription
of the e-mag.

Videos is a great
way to connect
with the public on
another level.
They are also very
quick + cheap to
produce.

I don't necessarily
have to print my
small booklets.
If I combine them
like a small magazine
they could work better
as an e-mag.

Which option
will cost the
most to make/
deliver?

OK I would automatically
think it would be
the posters and
booklets.
~~Printing~~ Printing them
would normally
be more expensive
than the web.

What technology /
media / manufacture
does the competitor/
alternative use?

So far they have
several websites
repeating the same
information.

They also have
several pro-gay
campaigns. Though
they seem to be
all over the place.
Gay marriage.
Gay rights.
Gayness is normal.

I'm bringing all
that information
to the place.
easy to find.

Rough
Website
Layout.

Just ideas.

Hi, I am Joanne Maguire, just a little about my self. I have recently just came out as a bisexual. So far the transition has been smooth. My family and friends have been very accepting. I have a boyfriend of 6 years who has also been very accepting and supporting me in trying to find my self.

Ethical
Questions
I need to
ask.

Psychologist -

- o Do you think homosexuality is wrong?
- o Do you have any clients
 - that are apart of the LGBT community?
- o What advice do you give them?
- o Do you think homosexuals are mental disabled?

Doctor -

- o What advice would you give to me? I am sexual active on bisexual?
- o Do you deal with HIV/Aids at all?
- o Where is the best place to get health advice for STI's/STO's?
- o What is your homosexuality?

Young open LGBT -

- o How old were you when you realised you are LGBT?
- o Have you come out?
- o Are you scared to come out?
- o Does your family know?
- o Have you researched your homosexuality?
- o Are you ever bullied about your homosexuality?
