

I Am Who I Am Project

This is a survey I have put together to find out more information about what the general public think of homosexuality. Your opinion and your knowledge will help me understand what the public already know and think.

This isn't going to be a typical Pro-Gay Campaign, we have all seen the campaigns that are for homosexuality; LGBT Rights, Gay marriage, and equality for homosexuals and gay people just being acknowledged. Then we have also seen the other side of them, where people object to homosexuality. My aim is to bring knowledge and understanding to people who don't understand fully what homosexuality is and why the homosexuality community exists.

I want to help the young homosexuals that are victims of hate crimes. I want to let them understand their homosexuality is not what defines them and they are just like everyone else and can be who or what ever they want to be. There is just so many different angles and viewers for this campaign I'm not sure which direction I want to take it until I do further research. This is where you can help me with this survey.

I understand I am filling this survey on a volunteer basis.

I understand the information I provide in this survey is strictly for research and will not be released publicly.

I agree the information I provide in this survey is genuine as possible and not falsified in anyway.
